

Charlotte Raz

Experience

Dragonfly Health

UI/UX Engineer

November 2024 - Present

New York City, New York (Remote)

- **Design System & Engineering**
 - Build and maintain Figma component libraries for an AI-assisted design system, pairing with Claude Code and GitHub Copilot to implement components, Storybook stories, and Code Connect mappings in the production repo
 - Refactor legacy front-end codebase to modern React/TypeScript patterns, improving maintainability and design-to-code consistency
 - Develop responsive, accessible UI components using React, MUI, HTML, and CSS, ensuring parity between Figma and production code
- **Product Design**
 - Design wireframes, mockups, and interactive prototypes for new product features, applying user-centered design principles across the full feature lifecycle
 - Review and refine existing UI/UX to improve usability, accessibility, and visual consistency across the platform
 - Lead user interviews to surface pain points and translate findings into actionable design decisions
- **Cross-functional Collaboration**
 - Present design concepts and prototypes in client and stakeholder meetings, gathering feedback and aligning on user and business goals
 - Partner with engineers and product managers to iterate on UI elements and ship features end-to-end

General Dynamics Information Technology

Web Developer

March 2023 - November 2024

Huntsville, AL (Remote)

- **Product Design**
 - Served as frontend engineer and designer on the Alabama Adult Education platform, redesigning and rebuilding a 20-year-old website into a modern, scalable platform.
 - Created wireframes, mockups, and prototypes to visualize concepts and validate them with user feedback.
 - Ensured usability and accessibility across web applications using design and development best practices.
- **Research & Insights**
 - Conducted user research, including interviews, surveys, and usability testing to uncover pain points, needs, and behavior patterns.
 - Validated design solutions through iterative testing, ensuring changes measurably improved user satisfaction and task completion.
- **Cross-functional Collaboration**
 - Partnered with cross-functional teams to implement design solutions, resolve bandwidth constraints, and improve performance of legacy products.
 - Stayed current on emerging web development and UX trends, applying new techniques to ongoing work.

Education

BA in Computer Science

Minor in Art Studio

Jan 2019 - Dec 2022

University of Alabama at Birmingham

Magna Cum Laude

Skills

- Wireframing
- Prototyping
- User Research/Interviews
- Usability Testing
- Competitive Research
- Personas
- Visual Design
- Sketching
- Frontend development

Tools

- Figma
- Photoshop
- Illustrator
- InDesign
- XD
- Premiere
- Visual Studio Code
- Visual Studio

Programming

- Claude code/Copilot
- Cursor
- HTML & CSS
- JavaScript
- TypeScript
- React.js
- .Net/C#
